## Introduction

At Arizona Complete Health-Complete Care Plan, we partner with your community, to give you the highest quality healthcare that you need and deserve.

We work with many community groups to make sure you have current information on programs and services to help you stay well. We feel that these programs are just as vital as regular check-ups. That's because they can connect you to many social services that can help you live a healthier life.

**Visit us online at [azcompletehealth.com/completecare](https://azcompletehealth.com/completecare) for more information**

These resources are for your information only. Arizona Complete Health-Complete Care Plan does not have control over the sites' content products or services.

If you have questions about community resources, please call Member Services at **1-888-788-4408** (TTY/TDD: **711**).

The Arizona Health Care Cost Containment System (AHCCCS), Arizona's state Medicaid agency, launched its Whole Person Care Initiative to focus on the social factors that have an impact on individual health and well-being, such as housing, employment, criminal justice, non-emergency transportation, and home and community-based services interventions. As part of the Whole Person Care Initiative strategy, AHCCCS partnered with Health Current to develop a technology solution that can support providers, health plans, community-based organizations (CBOs) and community stakeholders in meeting the healthcare and social-economic needs of Arizonans.

Health Current teamed with AHCCCS and, in collaboration with 2-1-1 Arizona (Solari), will implement a single, statewide closed loop referral system to address social determinants of health (SDOH) needs in Arizona. This new technology platform is designed to connect healthcare and community service providers to streamline the referral process, foster easier access to vital services and provide confirmation when social services are delivered.

## About Arizona’s Crisis Services

Arizona has a strong behavioral health crisis network.

Any Arizona resident can get help from this network, regardless of health insurance coverage. Services include:

- 24/7/365 crisis phone lines staffed by behavioral health providers.
- 24/7 mobile teams staffed by behavioral health providers. These providers can visit the person in crisis to assess and stabilize them. They can also transfer the person to a higher level of care if needed.
- Crisis centers that can observe and stabilize a person in crisis. These facilities can also offer medication to help with treatment.

For more information, visit [azahcccs.gov/BehavioralHealth/crisis.html](https://azahcccs.gov/BehavioralHealth/crisis.html)

TCAA In-Home Care for Tempe Seniors	TCAA provides a spectrum of services designed to assist Tempe seniors in need of help to remain at home for as long as possible. Homecare is personal support that is provided at home. It is designed to prevent or delay an unnecessary move to a higher level of care. TCAA's cadre of Neighbors Helping Neighbors (our volunteer corps) help seniors with a range of activities that have become more difficult as they age; especially for those who have limited or no support systems to meet these needs. We connect residents in need with those who care. The program would not be possible without the ongoing involvement of volunteers.
