# Emergency Care/ Urgent Care (Afterhours Care)

For life threatening emergencies always call **911**. Prior Authorization is not required for emergency services.

## **Should I go to the Emergency Room or Urgent Care?**

Urgent care is needed when you have an injury or illness that must be treated within 24 to 72 hours. It is not life-threatening. However, you cannot wait for a PCP office visit. Urgent care is *not* emergency care.

If you have a sudden health problem that is not an emergency, call your PCP. Your PCP will let you know what to do. When the office is closed, your call may go to an answering service. Listen carefully. You may be asked to leave a message so that the PCP can call you back.

If you are unable to reach your PCP, you can be seen at an urgent care center. You do not need an appointment to be seen at an urgent care center. You must use an urgent care center that is part of the Arizona Complete Health-Complete Care Plan network. For a list of urgent care centers near you visit [azcompletehealth.com/completecure](http://azcompletehealth.com/completecure).

## **Urgent Care (Afterhours Care)**

An urgent care center is a great place to get help because they usually have extended hours (afterhours), doctors to treat common problems, and can see you quickly (usually in less than an hour). Urgent care centers can help you with problems such as ear infections, sore throats, urinary tract infections, minor cuts and burns, sprains, and other common health issues. Urgent care can be used for problems your doctor would normally help you with. Please call Member Services at 1-888-788-4408, TTY/TDY: 711 and they can help you find an urgent care center near you.

## Telehealth Services

Telehealth services help provide necessary care when you are unable to go to the doctor in person. Please check with your provider on your provider's telehealth options. Members may call Teladoc 24 hours per day, 7 days per week and be connected with a healthcare provider in minutes. Teladoc can treat a number of different problems such as colds, flu, fevers, rash and skin conditions, sinuses and allergies, and respiratory infections. They also can prescribe medicines to treat those problems. You can call Teladoc at 1-800-835-2362.

# Mobile Urgent Care

Arizona Complete Health-Complete Care Plan has partnered up with DispatchHealth to deliver healthcare to you when you're sick or injured. This healthcare delivery service is in network for Arizona Complete Health-Complete Care Plan members in some areas. The next time you have an urgent illness or injury that doesn't require a trip to the emergency room, you can stay put and give DispatchHealth a call. They deliver many of the tools and technologies found in an ER, allowing the medical team to perform a variety of advanced tests and treatments, ranging from blood tests, a 12 lead EKG, IV fluids and more. Each medical team consists of either a physician assistant or nurse practitioner and a medical technician, along with an ER physician that is available by phone. In fact, these are the same providers that you would see in your local emergency room.

DispatchHealth is available from 8 a.m. to 10 p.m., seven days a week, 365 days a year including holidays. To request care, in Tucson call (520) 479-2552 and in Phoenix call (602) 661-9366.

For emergencies, including but not limited to, chest pain, signs of a stroke, allergic reactions or severe injuries, call 911.

going to the closest urgent care center. Please call Member Services at 1-888-788-4408, TTY/TDY: 711 and they can help you find an urgent care center near you.

## EMERGENCY TRANSPORTATION

Your condition is a medical emergency when your life, body parts or bodily functions are at risk of damage or loss unless immediate care is received. Emergency transportation is a covered benefit.

**In cases of emergency (in a life-threatening situation) call 911.**

Some examples of **Emergency Symptoms** include extreme shortness of breath, fainting, poisoning, chest pains, uncontrolled bleeding, and seizures.

Prior Authorization is not required for emergency services, including emergency transportation.

## NON-EMERGENCY TRANSPORTATION

Members can get rides to doctor appointments in several ways. The easiest way is to find a ride with a family member or a friend. If family is unavailable, and you have a Behavioral Health Home, your Behavioral Health Home is required to assist you with transportation. If you don't have a Behavioral Health Home or your Behavioral Health Home is unable to meet your transportation needs, please contact Member Services at 1-888-788-4408, TTY/TDY: 711. We will arrange for transportation for medical appointments. Please contact us three (3) days before the appointment.

You can call Member Services at 1-888-788-4408, TTY/TDY: 711 on weekends and holidays, for transportation to urgent care centers when you are sick.

Always remember to dial 911 in a true medical emergency.

In order for you to get health care service through our plan, the service must be both:

- A Covered Benefit based on your coverage with AHCCCS, and
- Medically Necessary.

A "Covered Benefit" means that you can get this service through AHCCCS and Arizona Complete Health-Complete Care Plan. "Medically Necessary" means that a covered service is provided by a physician or other licensed practitioner of the healing arts within the scope of practice under state law to prevent disease, disability or other adverse health conditions or their progression, or prolong life.

Arizona Complete Health-Complete Care Plan covers members from many groups. Please see below to see what services are covered for you.

If you have Medicare coverage and you see a doctor that is not in our network, the charges may not be covered. If you choose to do that without our approval, we may not pay for those services because they were done by a doctor that is not on our plan. It is important that you work with your PCP and/or Health Home/behavioral health provider to be referred to the right doctors. (This requirement does not include emergency services. ## Consent to Treatment

You have the right to accept or refuse behavioral health services that are offered to you. If you want to get the behavioral health services offered, you or your legal guardian must sign a

“Consent to Treatment” form giving your or your legal guardian’s permission for you to get behavioral health services. When you sign a “Consent to Treatment” form, you are also giving the Arizona Health Care Cost Containment System (AHCCCS) permission to access your records. To give you certain services, your provider needs to get your permission. Your provider may ask you to sign a form or to give verbal permission to get a specific service. You will be given information about the service so you can decide if you want that service or not. This is called informed consent. Informed consent means advising a patient of a proposed treatment, surgical procedure, psychotropic drug, or diagnostic procedure; alternatives to the treatment surgical procedure, psychotropic drug or diagnostic procedure; associated risks and possible complications, and obtaining documented authorization for the proposed treatment, surgical procedure, psychotropic drug, or diagnostic procedure from the patient or the patient’s representative. An example would be if your provider prescribes a medication. Your provider will tell you about the benefits and risks of taking the medication and other options for treatment. Your provider will ask you to sign a consent form or give verbal permission if you want to take the medication. Let your provider know if you have questions or do not understand the information your provider gave you. You have the right to withdraw your consent at any time. Your provider will explain to you what will happen if you choose to withdraw your consent.

## PEER AND FAMILY SUPPORT RESOURCES

Peer Support Services and Family Support Services are behavioral health services available to our members. Peer Run Organizations are owned, managed, and staffed by people who have received mental health services. These organizations can provide a wide range of services to adult members, including peer support, living skills, vocational skills, re-entry support (support when coming out of prison), veterans' services, and entrepreneurship skills. Peer support services are provided by individuals who have shared similar life experience, they understand what you're going through. Family Run Organizations are governed by family members of children with mental health challenges. These organizations service families with children with behavioral, emotional and mental health challenges. They can provide services including family

support, respite services, wellness and living skills, youth support, and vocational skills to families of children receiving behavioral health services. Call Member Services at 1-888-788-4408, TTY/TDY: 711 to find out more.

## END OF LIFE CARE

- End-of-life care is health care including physical, psychosocial and spiritual support provided to members that are facing a decline in their health status or have been diagnosed with a complex, chronic or terminal illness. The goal of end-of-life care is to improve member quality of life by providing services such as:
  - Physical and/or behavioral health treatments to relieve pain and other unpleasant symptoms brought on by the member's illness.
  - Referrals for community resources including but not limited to pastoral care, counseling and legal services.
  - Practical supports: non-billable services provided by a family member, friend or volunteer to assist with activities of daily living and other non-medical comfort measures.
- End-of-life care includes advance care planning, which are in-person conversations between members and their health care providers about their illness and treatment choices. Advance care planning allows members to fully understand the expected progression of their illness and their treatment options. It provides members with the opportunity to decide with their health care providers and their families or involved caregivers what their treatment course will be when faced with life limiting illness regardless of age or the stage of the illness. Once begun, advance care planning should be an ongoing process that continues throughout the duration of a member's life.
- End-of-life care allows members to receive palliative care, supportive care, and hospice services and often includes the development of advance directives, a legal document stating a person's health care preferences in event that they are not able to make their own health care decisions. These services are obtained through a member's physician or other qualified health care provider, such as a nurse practitioner or a physician's assistant.

If you would like more information about End-of-life Care for you or a loved one, please call Member Services at 1-888-788-4408, TTY/TDY: 711.

## **WELL VISITS**

Well visits (well exams) such as, but not limited to, well woman exams, breast exams, and prostate exams are covered for members. Most well visits (also called checkup or physical) include a medical history, physical exam, health screenings, health counseling and medically necessary immunizations. Early Periodic Screening, Diagnostic and Treatment (EPSDT) visits for members under 21 years of age are considered the same as a well visit.

## **WELL-CHILD CARE / EARLY PERIODIC SCREENING, DIAGNOSTIC AND TREATMENT (EPSDT)\***

Early Periodic Screening, Diagnostic and Treatment (EPSDT) is a comprehensive child health program of prevention and treatment, correction, and improvement (amelioration) of physical and behavioral health conditions for AHCCCS members under the age of 21.

The purpose of EPSDT is to ensure the availability and accessibility of health care resources, as well as to assist Medicaid recipients in effectively utilizing these resources.

EPSDT services provide comprehensive health care through primary prevention, early intervention, diagnosis, medically necessary treatment, and follow-up care of physical and behavioral health problems for AHCCCS members less than 21 years of age. Amount, Duration and Scope: The Medicaid Act defines EPSDT services to include screening services, vision services, dental services, hearing services and such other necessary health care, diagnostic services, treatment and other measures described in federal law subsection 42 U.S.C. 1396d(a) to correct or ameliorate defects and physical and mental illnesses and conditions discovered by

the screening services, whether or not such services are covered under the AHCCCS state plan. Limitations and exclusions, other than the requirement for medical necessity and cost effectiveness do not apply to EPSDT services.

A well child visit is synonymous with an EPSDT visit and includes all screenings and services described in the AHCCCS EPSDT and dental periodicity schedules.

This means that EPSDT covered services include services that correct or ameliorate physical and behavioral health conditions, and illnesses discovered by the screening process when those services fall within one of the optional and mandatory categories of “medical assistance” as defined in the Medicaid Act. Services covered under EPSDT include all 29 categories of services in the federal law even when they are not listed as covered services in the AHCCCS state plan, AHCCCS statutes, rules, or policies as long as the services are medically necessary and cost effective.

EPSDT includes, but is not limited to, coverage of: inpatient and outpatient hospital services, laboratory and x-ray services, physician services, naturopathic services, nurse practitioner services, medications, dental services, therapy services, behavioral health services, medical equipment, medical appliances and medical supplies, orthotics, prosthetic devices, eyeglasses, transportation, and family planning services. EPSDT also includes diagnostic, screening, preventive, and rehabilitative services. However, EPSDT services do not include services that are experimental, solely for cosmetic purposes, or that are not cost effective when compared to other interventions.

**The Well-child\* program includes the following procedures and tests to be performed as recommended by AHCCCS or at any time if medically indicated:**

- Medical history evaluation

- 2 months old
- 4 months old
- 6 months old

We also want you to be able to get medical care if you lose your AHCCCS eligibility. This handbook contains a list of clinics that offer low or no cost for medical care. ## Maternity Care

When you become pregnant, we want you to have a healthy pregnancy and a healthy baby. We have special programs that can help you throughout your pregnancy and after your baby’s birth, and even can provide incentives for you to attend your appointments. If you find out that you are pregnant, please give us a call so we can tell you more about what we can offer and how we can work with you to have the best outcomes for your pregnancy. Please call Member Services at the numbers below. Maternity care includes identification of pregnancy prenatal care, labor and delivery services and postpartum care and services to include immediate post-partum long acting reversible contraceptives. It is important that you make and keep appointments with your doctor during your pregnancy. An Arizona Complete Health-Complete Care Plan Maternal Child Health (MCH) Coordinator will provide support during and after your pregnancy. If you need help finding a provider to take care of you during your pregnancy and delivery, call Member Services at 1-888-788-4408, TTY/TDY: 711.

**Maternity care coordination** consists of the following maternity care related activities: talking

55 Arizona Complete Health-Complete Care Plan Member Services 1-888-788-4408, TTY/TDY: 711

with you about medical or social needs through a risk assessment evaluation; developing a plan of care designed to address those needs; assisting with referrals of the member to appropriate service providers and community resources; as needed, following up with referrals to ensure the services are received; and revising the plan of care, as appropriate.

**Breastfeeding** and offering your breastmilk are wonderful gifts that you can give your baby. The first few weeks can be tiring and difficult as you and baby are both learning to breastfeed. The first few weeks are important to establish your milk supply and can be a time when many moms stop breastfeeding. It is important to get help early before small concerns turn into big problems. For 24-hour help with any breastfeeding concern or problem, call the 24-hour Breastfeeding Hotline at 1-800-833-4642. We can also assist you with obtaining a breast pump if you have decided to breast feed.

## **PREGNANCY IDENTIFICATION**

As soon as you think you are pregnant, call your PCP to get a pregnancy test. Once you know that you are pregnant, it is important to choose a prenatal care provider. Please note: Your prenatal care provider may also serve as your Primary Care Provider. Call Member Services at 1-888-788-4408, TTY/TDY: 711 to choose a prenatal care provider that is right for you. Then call the provider to make your first appointment. You will not need a referral to see a prenatal care provider. There are different types of prenatal care providers that you can choose from. You may choose a doctor that specializes in pregnancy (also known as Obstetrician), a Certified Nurse Midwife, a licensed midwife (if you are over the age of 18 and are not high risk), a nurse practitioner or a physician's assistant.

## **PRENATAL CARE**

Prenatal care is the health care provided during pregnancy and is composed of three major components:

1. Early and continuous risk assessment
2. Health education and promotion, and
3. Medical monitoring, intervention, and follow-up.

Call and get your appointment as soon as you know you are pregnant. **Please note:** It is very important to go to all of your prenatal appointments as scheduled by your provider. During your prenatal care visits your provider may give this care:

- Checkups (including blood pressure check, check your weight, check your baby's movement and growth, and listen to your baby's heartbeat)
- Tests you may need, such as blood tests and urine tests to check that you are well.

- Check for infections, including sexually transmitted infections and HIV/AIDS. NOTE: Voluntary prenatal HIV testing and counseling is available to members.
- Give you prescriptions for prenatal vitamins or other medications the doctor prescribes.

When you find out you are pregnant, your provider must see you within:

- Fourteen (14) days if you are in your first trimester
- Seven (7) days if you are in your second trimester
- Three (3) days if you are in your third trimester
- Three (3) days if your pregnancy is high-risk or immediately if it is an emergency.

If you are not able to get an appointment within these time frames, call Member Services at 1-888-788-4408, TTY/TDY: 711 to assist you with getting a timely appointment. Call Member Services if you need a ride to your prenatal care appointments.

During your prenatal care visits, your provider will talk to you about staying healthy during your pregnancy. Your provider may talk about:

- Eating healthy foods
- Exercise during pregnancy
- Not smoking, not drinking alcohol or using other drugs during pregnancy.
- Medications during pregnancy
- Screening for sexually transmitted infection
- Dangers of lead exposure to pregnant individual and baby
- The normal pregnancy changes your body will go through
- When to call your provider right away for health changes
- Plan of safe care following delivery
- Breastfeeding
- Postpartum follow-up
- Family planning

At your first visit, your provider will also do a risk assessment to identify your medical, behavioral or social needs. Your questions and needs will show the doctor how a pregnancy will be set. At this time, your doctor will make referrals to community service offices and resources can be coordinated. Some examples of community service offices are Women, Infants and Children (WIC) and other state assistance programs like the Department of Economic Security (DES). DES provides financial aid to Arizona residents that qualify at application. Your pregnancy care plan may be changed as needed. If you need help during your pregnancy, call Member Services at 1-888-788-4408, TTY/TDY: 711 and we can help. Arizona Complete Health-Complete Care Plan has care managers to assist our providers with maternity care coordination. You can

change providers or plans during your pregnancy. If you need help, the care managers can help you. Call Member Services at 1-888-788-4408, TTY/TDY: 711 if you need help for any of these reasons.

### **HIV/AIDS TESTING**

Voluntary, confidential Human Immunodeficiency Virus/Acquired Immune Deficiency Syndrome (HIV/AIDS) testing services are available to prenatal and non-prenatal members. Information is also provided regarding the availability of medical counseling and treatment, as well as the benefits of treatment for members who test positive. Arizona Complete Health-Complete Care Plan can help. Call Arizona Complete Health-Complete Care Plan Member Services at 1-888-788-4408, TTY/TDY: 711, for information about confidential testing or counseling services.

**Important Note: Family Planning benefit coverage is available at no cost for both male and female members of reproductive age.**

We also want you to be able to get medical care if you lose your AHCCCS eligibility. Arizona Complete Health-Complete Care Plan can help you find low cost or no cost family planning services and supplies. This handbook contains a list of clinics that offer low or no cost for medical care. Call the clinics to find out about services and costs. If you have questions or need help call Arizona Complete Health-Complete Care Plan Member Services at 1-888-788-4408, TTY/TDY: 711. You may also call the Arizona Department of Health Services Hotline at 1-800-833-4642.

You have the freedom of choice to seek family planning services and supplies from any network or out-of-network PCP or Gynecologist. No referral is needed from your PCP for family planning and OB/GYN services. Family planning services require no copayment and are offered at no cost to you.

### **HIGH RISK PREGNANCY**

High-risk pregnancy refers to a pregnancy in which the child-bearer, fetus, or newborn is, or is anticipated to be, at increased risk for morbidity or mortality before or after delivery. High-risk is determined through the use of the Medical Insurance Company of Arizona (MICA) or American College of Obstetricians and Gynecologists (ACOG) standardized medical risk assessment tools. These forms are completed by your OB physician during your visit with them.

Your pregnancy may be high-risk if you or your baby have a medical or other condition that could make you or your baby sick while you are pregnant or after delivery.

Arizona Complete Health-Complete Care Plan has care managers that can help you with your high risk pregnancy at no cost to you. Our care managers can answer your questions and help you with your appointments or referrals. If you want to talk to one of our care managers, please call Member Services at 1-888-788-4408, TTY/TDY 711.

## **LABOR AND DELIVERY CARE**

When your baby is due (pregnancy usually is 40 weeks until delivery), your provider will deliver your baby at a hospital or birthing center. The hospitals are listed in the Provider Directory. If your pregnancy is not high risk, you may be able to deliver your baby at home with a licensed physician, practitioner or licensed midwife.

- Practitioner refers to certified nurse practitioners in midwifery, physician's assistants and other nurse practitioners.
- A Licensed Midwife is an individual licensed by the Arizona Department of Health Services to provide maternity care pursuant to Arizona Revised Statutes (A.R.S.) Title 36, Chapter 6, Article 7 and Arizona Administrative Code Title 9, Chapter 16. (This provider type does not include Certified Nurse Midwives licensed by the Board of Nursing as a nurse practitioner in midwifery or physician assistants licensed by the Arizona Medical Board.)
- A Certified Nurse Midwife (CNM) is certified by the American College of Nursing Midwives (ACNM) on the basis of a national certification examination and licensed to practice in Arizona by the State Board of Nursing. CNMs practice independent management of care for pregnant individuals and newborns, providing antepartum, intrapartum, postpartum, gynecological, and newborn care, within a health care system that provides for medical consultation, collaborative management, or referral.

## **POSTPARTUM CARE**

Postpartum care is the health care provided for a period that begins on the last day of pregnancy and continues up to 84 days after delivery. This is called a postpartum visit. This final part of maternity care is very important and should not be avoided even if your delivery went well. Your provider will examine you for medical and behavioral health needs after your baby was born. Many individuals that have given birth can feel sad or depressed after their baby is born. Tell your provider if you have these feelings. Depression can be treated. It is important to let someone know if you are feeling depressed. Family planning services are included if provided by a physician or a practitioner. Call Member Services at 1-888-788-4408, TTY/TDY: 711 to schedule an appointment or if you need a ride to your postpartum care appointments.

## **MEDICALLY NECESSARY PREGNANCY TERMINATIONS**

Pregnancy terminations are an AHCCCS covered service only in special situations. AHCCCS covers pregnancy termination if one of the following criteria is present:

1. The pregnant member suffers from a physical disorder, physical injury, or physical illness including a life-endangering physical condition caused by, or arising from, the pregnancy itself that would, as certified by a physician, place the member in danger of death, unless the pregnancy is terminated.
2. The pregnancy is a result of incest.
3. The pregnancy is a result of rape.
4. The pregnancy termination is medically necessary according to the medical judgment of a licensed physician, who attests that continuation of the pregnancy could reasonably be expected to pose a serious physical or behavioral health problem for the pregnant member by:
  - a. Creating a serious physical or behavioral health problem for the pregnant member,
  - b. Seriously impairing a bodily function of the pregnant member,
  - c. Causing dysfunction of a bodily organ or part of the pregnant member,
  - d. Exacerbating a health problem of the pregnant member, or
  - e. Preventing the pregnant member from obtaining treatment for a health problem.

## Dental Care

### **MEMBERS UNDER 21 YEARS OF AGE**

All dental health checkups, cleanings and treatments are covered for members under the age of 21. A doctor referral is not needed to see a dentist. Two (2) routine and preventive dental visits are covered per year for members under the age of 21. It is important to take your children to the dentist twice a year to keep their teeth healthy. From the time the first tooth appears, or by one year of age, children should visit their dentist for a checkup every six months.

Every member under age 21 needs to have a Dental Home. A Dental Home is an assigned dentist who will get you or your child the dental care that is needed. Call Member Services at 1-888-788-4408, TTY/TDY: 711 to select a dentist or one will be assigned. If a dentist is assigned that you do not want, or if you see a dentist already in our network and you are happy with that dentist please call Member Services at 1-888-788-4408 or TTY/TDY: 711 to ask to keep that dentist.

Arizona Complete Health-Complete Care Plan sends dental checkup reminder letters to members. It is important to go to your scheduled visit because dentists can help prevent cavities. They can use dental sealants (a plastic coating painted on the back teeth) and fluoride

treatments. Dentists also teach you and your child how to care for teeth. It is important to visit the dentist for checkups two times every year. Call Member Services at 1-888-788-4408, TTY/TDY: 711 if you need help finding a dental provider. Once you choose a dentist, you can call their office to make, change or cancel an appointment.

The following routine dental services are only covered for members under the age of 21:

- Dental exams
- Dental cleanings
- Fillings for cavities
- X-rays to screen for dental problems
- Application of fluoride
- Dental sealants
- Emergency dental services

Use these guidelines for scheduling appointments for your child:

- Urgent— As expeditiously as the member's health condition requires but no later than three business days of request
- Routine Care – within 45 calendar days of request
- Make sure you take your child's Arizona Complete Health-Complete Care Plan ID card with you to the dental appointment.

If you need to make, change, or cancel a dental appointment please contact your dentist or Arizona Complete Health-Complete Care Plan Member Service 1-888-788-4408 or TTY/TDY: 711 for assistance.

## **MEMBERS 21 YEARS OF AGE AND OLDER**

What if I am over 21 years old and have a dental emergency? Limited dental services are covered to relieve severe pain and or infection. Adult members 21 years of age and older can receive emergency dental services, limited to \$1000 member per contract year. Emergency services over the \$1000 benefit are the responsibility of the member.

Routine dental services are not covered for members 21 years of age or older. AHCCCS covers medical and surgical services related to dental (oral) care only to the extent such services may be performed under State law by either a physician or by a dentist and the services would be considered physician services if done by a physician. Covered dental services for members 21 years of age and older must be related to the treatment of a medical condition such as loss of tooth/teeth due to trauma, cyst or tumor, or fracture of the jaw. Covered dental services

include examining the mouth, x-rays, care of fractures of the jaw or mouth, giving anesthesia, and pain medication and/ or antibiotics.

What else is covered? Certain pre-transplant services related to the elimination of oral infections and treatment of oral disease (such as dental cleanings, filings, simple restorations, extractions) and prophylactic extraction of teeth in preparation for radiation treatment of cancer of the jaw, neck or head are also covered. Dental cleanings are covered for members who are in an inpatient hospital setting and are placed on a ventilator or are unable to perform oral hygiene. These services are not part of the \$1000 adult emergency dental limit.

## Pharmacy Services

Our pharmacy program includes high-quality, cost-effective medication therapy. We work with providers and pharmacists to ensure that we cover medications used to treat a variety of conditions and diseases. When ordered by a provider, we cover prescription medications and certain over-the-counter medications.

Some medications require prior authorization or have limitations on age, dosage and maximum quantities. For some drugs, you must try another drug first – this is called step therapy. Please refer to the Arizona Complete Health-Complete Care Plan Preferred Drug List or PDL for more detail. Arizona Complete Health-Complete Care Plan will cover the drugs listed on our Preferred Drug List as long as they are medically necessary and appropriate. The Arizona Complete Health-Complete Care Plan PDL includes all medications covered on the related AHCCCS Preferred Drug List and include additional medications that are safe and effective.

The Arizona Complete Health-Complete Care Plan PDL can be found at [www.azcompletehealth.com/completecure](http://www.azcompletehealth.com/completecure)

### **WHAT IF A DRUG IS NOT ON THE PDL/FORMULARY?**

The PDL is not a complete list of drugs covered by Arizona Complete Health-Complete Care Plan. If the medicine your doctor feels you need is not on our list of covered drugs and you can't take any other medication except the one prescribed, your doctor may request Prior Authorization from us.

Arizona Complete Health-Complete Care Plan will approve your request for an exception if the alternative drugs included on the formulary or additional restrictions would not be as effective in treating your condition and/or would cause you to have adverse medical effects.

## WHAT IF MY REQUEST IS DENIED?

- When Arizona Complete Health-Complete Care Plan denies a request for authorization, a *Notice of Adverse Benefit Determination* or *Notice of Decision (NOD)* is mailed to the member, and an explanation letter is mailed to the requesting provider. The member's Notice of Adverse Benefit Determination will advise the member on how to file an appeal.
- If Arizona Complete Health-Complete Care Plan is reducing, suspending or terminating an existing service, there are additional rights and rules that apply, other than just being able to file an appeal.

## HOW TO FILL A PRESCRIPTION

If you take medicine for an ongoing health condition, you can have your medicines mailed to your home. Arizona Complete Health-Complete Care Plan works with a company called Caremark to give you this service, which you can get at no cost to you. [www.azcompletehealth.com/completecure](http://www.azcompletehealth.com/completecure) on the Find a Provider page. You can also call a Member Services Representative at 1-888-788-4408, TTY/TDY: 711 to help you find a pharmacy. At the pharmacy, you will need to provide the pharmacist with your prescription and your member ID card.

If you choose this option, your medicine comes right to your door. You can schedule your refills and reach pharmacists if you have questions. If you need medication home delivery services, please visit <https://www.caremark.com/> for information on receiving your medications at your home, workplace or doctor's office.

Some specialty drugs are only covered when supplied by our specialty pharmacy provider. Most of these drugs do require a prior authorization.

If you have other insurance besides Medicare Part D, we will only pay the co-pays (if applicable) if the drug is also on our list of covered drugs.

**For pharmacy issues or help after hours, on weekends, or holidays (including if you are turned away from the pharmacy when you try to get your prescription),** please contact Member Services at 1-888-788-4408, TTY/TDY: 711 24 hours a day, seven days a week.

## WHAT YOU NEED TO KNOW ABOUT YOUR NEW PRESCRIPTION

Your doctor or dentist may give you a prescription for medication. Be sure and let your doctor know about any medications you get from other doctors or medications you buy on your own including non-prescription or herbal products.

When you pick up your prescription, the pharmacist will talk to you about your new prescription. Ask your pharmacist about how to take your medication and about any side effects that could happen. The pharmacy will also give you printed drug information when you fill your prescription. It will explain what you should and should not do and possible side effects.

## **REFILLS**

The label on your medication bottle tells you how many refills your doctor has ordered for you. If your doctor has ordered refills, you may only get up to one 30-day fill at a time. Call your pharmacy for a refill; they will tell you when you can pick it up.

If your doctor has not ordered refills, you or the pharmacy must call your doctor before your medication runs out. Talk to your doctor or pharmacy about getting a refill. The doctor may want to see you before giving you a refill.

## **WHAT SHOULD I DO IF THE PHARMACY CANNOT FILL MY PRESCRIPTION?**

Call Member Services at 1-888-788-4408, TTY/TDY: 711 and we can help find out why your prescription cannot be filled. Sometimes a primary insurance may be entered wrong or it may be too soon to refill. Other times the medication is not on our Drug List – our list of covered drugs. If the pharmacy turns you away or will not fill your prescription, ask if you and the pharmacist can call Member Services together to find what is happening. We will work with you and the pharmacy to find the best options for you.

## **EXCLUSIVE PHARMACIES**

Arizona Complete Health-Complete Care Plan wants to keep members safe. Arizona Complete Health-Complete Care Plan may assign members to a Pharmacy Home or exclusive pharmacy. Exclusive pharmacies are chosen by the member or assigned by Arizona Complete Health-Complete Care Plan to provide all medically necessary medications. Members may be assigned exclusive pharmacies if:

4. Effective Innovation,
5. Expectation for Improvement, and

## **THE TWELVE PRINCIPLES FOR THE DELIVERY OF SERVICES TO CHILDREN:**

  - a. Respect for and active collaboration with the child and parents is the cornerstone to achieving positive behavioral health outcomes, and
  - b. Parents and children are treated as partners in the assessment process, and the planning, delivery, and evaluation of behavioral health services, and their preferences are taken seriously.
2. Functional outcomes:
  - a. Behavioral health services are designed and implemented to aid children to achieve success in school, live with their families, avoid delinquency, and become stable and productive adults, and
  - b. Implementation of the behavioral health services plan stabilizes the child's condition and minimizes safety risks.
3. Collaboration with others:
  - a. When children have multi-agency, multi-system involvement, a joint assessment is developed and a jointly established behavioral health services plan is collaboratively implemented,
  - b. Client-centered teams plan and deliver services,
  - c. Each child's team includes the child and parents and any foster parents, any individual important in the child's life who is invited to participate by the child or parents. The team also includes all other persons needed to develop an effective plan, including, as appropriate, the child's teacher, the child's Department of Child Safety (DCS) and/or Division of Developmental Disabilities (DDD) caseworker, and the child's probation officer and
  - d. The team:
    - i. Develops a common assessment of the child's and family's strengths and needs,
    - ii. Develops an individualized service plan,
    - iii. Monitors implementation of the plan, and
    - iv. Makes adjustments in the plan if it is not succeeding.
4. Accessible services:
  - a. Children have access to a comprehensive array of behavioral health services, sufficient to ensure that they receive the treatment they need,
  - b. Case management is provided as needed,
  - c. Behavioral health service plans identify transportation the parents and child need to access behavioral health services, and how transportation assistance will be provided, and
  - d. Behavioral health services are adapted or created when they are needed but not available.

5. Best practices:

- a. Behavioral health services are provided by competent individuals who are trained and supervised,
  - b. Behavioral health services are delivered in accordance with guidelines that incorporate evidence-based “best practices.”
  - c. 12. Connection to natural supports:
- a. The behavioral health system identifies and appropriately utilizes natural supports available from the child and parents' own network of associates, including friends and neighbors, and from community organizations, including service and religious organizations.

## **NINE GUIDING PRINCIPLES FOR RECOVERY-ORIENTED ADULT BEHAVIORAL HEALTH SERVICES AND SYSTEMS**

1. Respect - Respect is the cornerstone. Meet the person where they are without judgment, with great patience and compassion.
2. Persons in recovery choose services and are included in program decisions and program development efforts - A person in recovery has choice and a voice. Their self-determination in driving services, program decisions and program development is made possible, in part, by the ongoing dynamics of education, discussion, and evaluation, thus creating the "informed consumer" and the broadest possible palette from which choice is made. Persons in recovery should be involved at every level of the system, from administration to service delivery.
3. Focus on individual as a whole person, while including and/or developing natural supports - A person in recovery is held as nothing less than a whole being: capable, competent, and respected for their opinions and choices. As such, focus is given to empowering the

greatest possible autonomy and the most natural and well-rounded lifestyle. This includes access to and involvement in the natural supports and social systems customary to an individual's social community.

4. Empower individuals taking steps towards independence and allowing risk taking without fear of failure - A person in recovery finds independence through exploration, experimentation, evaluation, contemplation and action. An atmosphere is maintained whereby steps toward independence are encouraged and reinforced in a setting where both security and risk are valued as ingredients promoting growth.
5. Integration, collaboration, and participation with the community of one's choice - A person in recovery is a valued, contributing member of society and, as such, is deserving of and beneficial to the community. Such integration and participation underscores one's role as a vital part of the community, the community dynamic being inextricable from the human experience. Community service and volunteerism is valued.
6. Partnership between individuals, staff and family members/natural supports for shared decision making with a foundation of trust - A person in recovery, as with any member of a society, finds strength and support through partnerships. Compassion-based alliances with a focus on recovery optimization bolster self-confidence, expand understanding in all participants and lead to the creation of optimum protocols and outcomes.
7. Persons in recovery define their own success - A person in recovery – by their own declaration – discovers success, in part, by quality of life outcomes, which may include an improved sense of well-being, advanced integration into the community, and greater self-determination. Persons in recovery are the experts on themselves, defining their own goals and desired outcomes.
8. Strengths-based, flexible, responsive services reflective of an individual's cultural preferences - A person in recovery can expect and deserves flexible, timely and responsive services that are accessible, available, reliable, accountable and sensitive to cultural values and mores. A person in recovery is the source of their own strength and resiliency. Those who serve as supports and facilitators identify, explore and serve to optimize demonstrated strengths in the individual as tools for generating greater autonomy and effectiveness in life.
9. Hope is the foundation for the journey towards recovery - A person in recovery has the capacity for hope and thrives best in associations that foster hope. Through hope, a future of possibility enriches the life experience and creates the environment for uncommon and unexpected positive outcomes to be made real. A person in recovery is held as boundless in potential and possibility.

## **Children's Rehabilitative Services (CRS)**

### **What is CRS?**

Children's Rehabilitative Services (CRS) is a designation given to certain AHCCCS members who have qualifying health conditions. Members with a CRS designation can get the same AHCCCS covered services as non-CRS AHCCCS members and are able to get care in the community, or in clinics called multispecialty interdisciplinary clinics (MSIC). MSICs bring many specialty providers together in one location. Your health plan will assist a member with a CRS designation with closer care coordination and monitoring to make sure special healthcare needs are met.

Eligibility for a CRS designation is determined by the AHCCCS Division of Member Services (DMS).

## Who is Eligible for a CRS Designation?

AHCCCS members may be eligible for a CRS designation when they are:

- Under age 21; and
- Have a qualifying CRS medical condition

### **The medical condition must:**

- Require active treatment; and
- Be found by AHCCCS DMS to meet criteria as specified in R9-22-1301-1305.

A CRS applicant must be eligible for AHCCCS to receive a CRS designation. If the CRS applicant is not currently an AHCCCS member they must apply for AHCCCS:

- Call AHCCCS toll free at 1-855-HEA-PLUS (toll-free 1-855-432-7587)

Anyone can fill out a CRS application including a family member, doctor, or health plan representative. To apply for a CRS designation mail or fax:

Medical documentation that supports that the applicant has a CRS qualifying condition that requires active treatment. The mailing address and fax number can be found on the CRS application.  
The AHCCCS CRS Unit can assist with completing the CRS application. You can contact the CRS Unit at: 602-417-4545 or 1-855-333-7828.

### **EARLY CHILDHOOD SERVICES\***

If you are concerned that your child is not growing like other children of the same age, tell your pediatrician or family doctor. Your doctor can refer you to specialists to learn if your child is on track with talking, moving, using hands and fingers, seeing and hearing. If your child is behind in one or more of these areas, services are available to help you help your child improve in these areas. The doctor may refer you to the Arizona Early Intervention Program (AzEIP) if your child is birth to three years of age and has a delay. To learn more about other community programs for children with special needs call Member Services at 1-888-788-4408, TTY/TDY: 711.

## Approval and Denial Process

Some medical and behavioral health services may need Prior Authorization. Prior Authorization means your doctor has requested permission for you to get a special service or referral. We must approve these requests before the delivery of services. For example, non-emergency hospital admissions or others such as:

- Behavioral Health Inpatient Facility
- Behavioral Health Residential Facility

- Home Care Training to Home Care Clients (HCTC)
- Psychological and Neuropsychological Testing
- Electroconvulsive Therapy (ECT)
- Non-emergency out of network services/treatments
- Some medications, check the list of approved medications (formulary)
- MRI, MRA, PET scans
- Special lab work, genetics
- Surgeries, pre-scheduled
- Dialysis
- Some Outpatient procedures and surgeries
- Transplant
- Bio pharmacy (Buy and Bill)

If they do, your provider will arrange for authorization for these services. We must review these authorization requests before you can get the service.

**If you or your provider would like a referral to a service that is not a covered benefit, please call Member Services at 1-888-788-4408, TTY/TDY: 711 so we can discuss other options available to you.**

**Prior Authorization is approved based on a review of medical need.**

Your provider will let you know when authorization is obtained. You can also call Member Services to find out the status of the request. We will let you know by mail if authorization is denied. In the letter, you will have instructions on how to file an appeal. The letter will describe the reason for the denial. If you have a question about the denial and need help, please call Member Services at 1-888-788-4408, TTY/TDY: 711. Please see the section titled *“Complaints: What Should I Do if I Am Unhappy?”* in this handbook for more information about filing an appeal about a denied authorization.

**The criteria that decisions are based on are available upon request.**

## In-Network Referrals and Freedom of Choice of Providers

## Copayments

Some people who get AHCCCS Medicaid benefits are asked to pay copayments for some of the AHCCCS medical services that they receive.

**\*NOTE:** Copayments referenced in this section means copayments charged under Medicaid (AHCCCS). It does not mean a person is exempt from Medicare copayments.

### **THE FOLLOWING PERSONS ARE NOT ASKED TO PAY COPAYMENTS:**

- People under age 19,
- People determined to be Seriously Mentally Ill (SMI),
- An individual designated eligible for Children's Rehabilitative Services (CRS) pursuant to as A.A.C. Title 9, Chapter 22, Article 13,
- ACC, CHP, and RBHA members who are residing in nursing facilities or residential facilities such as an Assisted Living Home and only when member's medical condition would otherwise require hospitalization. The exemption from copayments for these members is limited to 90 days in a contract year,
- People who are enrolled in the Arizona Long Term Care System (ALTCS),
- People who are Qualified Medicare Beneficiaries,
- People who receive hospice care,
- American Indian members who are active or previous users of the Indian Health Service, tribal health programs operated under Public Law 93-638, or urban Indian health programs,
- People in the Breast and Cervical Cancer Treatment Program (BCCTP),
- People receiving child welfare services under Title IV-B on the basis of being a child in foster care or receiving adoption or foster care assistance under Title IV-E regardless of age,
- People who are pregnant and throughout postpartum period following the pregnancy, and
- Individuals in the adult Group (for a limited time\*\*).

**\*\*NOTE:** For a limited time persons who are eligible in the Adult Group will not have any copays. Members in the Adult Group include persons who were transitioned from the AHCCCS Care program as well as individuals who are between the ages of 19-64, and who

133% of the Federal Poverty Level (FPL) and who are not AHCCCS eligible under any other category. Copays for persons in the Adult Group with income over 106% FPL are planned for the future. Members will be told about any changes in copays before they happen.

**IN ADDITION, COPAYMENTS ARE NOT CHARGED FOR THE FOLLOWING SERVICES FOR ANYONE:**

- Hospitalizations,
  - Emergency services,
  - Family Planning services and supplies,
  - Pregnancy related health care and health care for any other medical condition that may complicate the pregnancy, including tobacco cessation treatment for pregnant women,
  - Preventive services, such as well visits, pap smears, colonoscopies, mammograms and immunizations,
  - Provider preventable services, and
- Services received in the emergency department.

**PEOPLE WITH OPTIONAL (NON-MANDATORY) COPAYMENTS**

Individuals eligible for AHCCCS through any of the programs below may be charged non-mandatory copays, unless:

They are receiving one of the services above that cannot be charged a copay, or

They are in one of the groups above that cannot be charged a copay.

Non-mandatory copays are also called optional copays. If a member has a non-mandatory copay, then a provider cannot deny the service if the member states that s/he is unable to pay the copay. Members in the following programs may be charged non-mandatory copay by their provider:

- AHCCCS for Families with Children (1931),
- Young Adult Transitional Insurance (YATI) for young people in foster care,
- State Adoption Assistance for Special Needs Children who are being adopted,
- Receiving Supplemental Security Income (SSI) through the Social Security Administration for people who are age 65 or older, blind or disabled,
- SSI Medical Assistance Only (SSI MAO) for individual who are age 65 or older, blind or disabled,
- Freedom to Work (FTW).

Ask your provider to look up your eligibility to find out what copays you may have. You can also find out by calling Arizona Complete Health-Complete Care Plan member services. You can also check the Arizona Complete Health-Complete Care Plan website for more information. AHCCCS members with non-mandatory copays may be asked to pay the following non-mandatory copayments for medical services:

**OPTIONAL (NON-MANDATORY) COPAYMENT AMOUNTS FOR SOME MEDICAL SERVICES**

SERVICE	COPAYMENT
Prescriptions	\$2.30

Out-patient services for physical, occupational and speech therapy	\$2.30
Doctor or other provider outpatient office visits for evaluation and management of your care	\$3.40

Medical providers will ask you to pay these amounts but will **NOT** refuse you services if you are unable to pay. If you cannot afford your copay, tell your medical provider you are unable to pay these amounts so you will not be refused services.

### **PEOPLE WITH REQUIRED (MANDATORY) COPAYMENTS**

Some AHCCCS members have required (or mandatory) copays unless they are receiving one of the services above that cannot be charged a copay or unless they are in one of the groups above that cannot be charged a copay. Members with required copays will need to pay the copays in order to get the services. Providers can refuse services to these members if they do not pay the mandatory copays. Mandatory copays are charged to persons in Families with Children that are no Longer Eligible Due to Earnings - also known as Transitional Medical Assistance (TMA)

Adults on TMA have to pay required (or mandatory) copays for some medical services. If you are on the TMA Program now or if you become eligible to receive TMA benefits later, the notice from DES or AHCCCS will tell you so. Copays for TMA members are listed below.

### **Required (Mandatory) Copayment Amounts for Persons Receiving TMA Benefits**

<b>Service</b>	<b>Copayment</b>
Prescriptions	\$2.30
Doctor or other provider outpatient office visits for evaluation and management of your care	\$4.00
Physical, Occupational and Speech Therapies	\$3.00
Outpatient Non-emergency or voluntary surgical procedures	\$3.00

Pharmacists and Medical Providers can refuse services if the copayments are not made.

### **5% Limit on All Copayments**

The amount of total copays cannot be more than 5% of the family's total income (before taxes and deductions) during a calendar quarter (January through March, April through June, July through September, and October through December.) The 5% limit applies to both nominal and required copays.

AHCCCS will track each member's specific copayment levels to identify members who have reached the 5% copayment limit. If you think that the total copays you have paid are more than 5% of your family's total quarterly income and AHCCCS has not already told you this has happened, you should send copies of receipts or other proof of how much you have paid to AHCCCS, 801 E. Jefferson, Mail Drop 4600, Phoenix, Arizona 85034.

If you are on this program but your circumstances have changed, contact your local DES office to ask them to review your eligibility. Members can always request a reassessment of their 5% limit if their circumstances have changed.

### **PAYING FOR COVERED SERVICES**

Only in very limited circumstances should you be asked to pay for covered services. Doctors, hospitals, and pharmacies can verify your coverage through AHCCCS or by calling Arizona Complete Health-Complete Care Plan Member Service. If you have been asked to pay for a covered service or if you have received a bill for covered services, please contact Member Services at 1-888-788-4408, TTY/TDY: 711 to discuss your options for reimbursement.

### **PAYING FOR NON-COVERED SERVICES**

We will only cover care approved by our plan, unless it is an Emergency Service. If you obtain a service or prescription that is not covered by our plan, Arizona Complete Health-Complete Care Plan will not be responsible for payment.

## **Coordination of Benefits (COB)**

AHCCCS is the payor of last resort. This means AHCCCS shall be used as a source of payment for covered services only after all other sources of payment have been exhausted.

If you are a member with “other insurance” or are “dual eligible” (which means that you also have Medicare coverage), please take a moment to call Member Services at 1-888-788-4408, TTY/TDY: 711 to let us know. When you call us, we will make sure we have the other insurance listed in our system.

You may also call the AHCCCS eligibility office to let them know. AHCCCS will then pass the information on to us. Remember, this also includes insurance coverage through divorce or if your child has insurance that is paid by your former spouse. Sometimes, members with other types of insurance such as Tricare or other commercial plans are approved for AHCCCS. We are responsible for making any co-payment, coinsurance or deductibles, even if the services are provided outside of our network.

If a third party insurer (other than Medicare) requires the member to pay any co-payment, coinsurance or deductible, we are responsible for paying the lesser of the difference between:

- The Primary Insurance Paid amount and the Primary Insurance Rate (i.e., the member’s co-payment required under the Primary Insurance).

OR

- The Primary Insurance Paid amount and the AHCCCS Fee for Service Rate, even if the

services are provided outside of the network.

We are not responsible for paying coinsurance and deductibles that are more than what we would have paid for the entire service per the contract with the provider performing the service, or the AHCCCS equivalent

Arizona Complete Health-Complete Care Plan takes reasonable measures to find out who may be legally required to pay all or part of covered services. This is called establishing liability.

The two methods used for coordination of benefits are Cost Avoidance and Post-Payment Recovery.

Cost avoidance means that we avoid paying the cost of services on a claim if we have established that there is a liable party, such as other insurance that should be covering the cost.

Post-Payment Recovery means that if we find out that there was a liable party after we have paid a claim, we will recover the cost of that claim.

AHCCCS is the payor of last resort unless specifically prohibited by applicable state or federal law. This means AHCCCS shall be used as a source of payment for covered services only after all other sources of payment have been exhausted. Arizona Complete Health-Complete Care Plan will take reasonable measures to identify potentially legally liable third-party sources.

## Special Information for Our Members Who Have Medicare Coverage

If you are a “dual eligible” member, it often means that you have additional benefits that may not be covered under AHCCCS. When we know about your other insurance, it helps us coordinate the care you receive with the other plan.

If you have Medicare coverage and you see a doctor that is out of our network, the charges may not be covered. Arizona Complete Health-Complete Care Plan may not pay for services if you decide to see a doctor outside of our network without our prior authorization. If you would like to see a doctor outside of our network, please call our Member Services at 1-888-788-4408, TTY/TDY: 711 to discuss your options. It is important that you work with your PCP to be referred to the right doctors. We will not cover copays or deductibles for services provided outside of the network without Prior Authorization.

Prior Authorization is not required for emergency services.

Dual eligible members have a choice of all providers in the network and are not restricted to those that accept Medicare.

**Why should you call Member Services and let us know about the different coverage that you have?** Because it will help you get the maximum benefits from both insurance plans!

### **IMPORTANT INFORMATION FOR AHCCCS MEMBERS WITH MEDICARE PART D COVERAGE (DUAL ELIGIBLE MEMBERS)**

Medicaid does not cover most medications covered by Medicare Part D and does not pay for Medicare copayments, coinsurance, or the deductible for Medicare Part D medications except for members with serious mental illness (SMI). Special exceptions to this rule may apply to members who have either exhausted their Part A coverage, or only have Part B benefits. AHCCCS covers medications that are excluded from coverage under Medicare Part D when medically necessary. An excluded drug is a medication that is not eligible for coverage under Medicare Part D. AHCCCS may cover some medications that are Over-the-Counter, refer to the Arizona Complete Health-Complete Care Plan Over-the Counter Drug List for a list of products available on our website at <https://www.azcompletehealth.com/members/medicaid/benefits-services/pharmacy.html> or call Member Services at 1-888-788-4408, TTY/TDY: 711 to request a printed copy.

### **Timeframes for Service Authorization and Medication**
