Tempe, AZ 85281-2145

Dear Valued Provider,

I am excited to share some great news: Starting October 1, 2018, Health Net of Arizona and Cenpatico Integrated Care will be changing their name to Arizona Complete Health.

Our look and our logo will take a new form, but our purpose remains the same. The foundation of our brand – really, everything we do here at Arizona Complete Health – will stay focused on: **Transforming the Health of the Community, One Person at a Time**. This will continue to drive every program that serves our members – Medicare Advantage, Medicaid or Marketplace.

While Arizona Complete Health is a new name, the plan builds upon a tradition of excellence started by Health Net of Arizona and Cenpatico Integrated Care. Health Net of Arizona was founded in Tucson in 1981 as Intergroup of Arizona and has a proud history of serving Arizonans statewide through Medicare Advantage, employer-based coverage, Marketplace and AHCCCS. Cenpatico's roots date back to 2005, improving access to community-based behavioral health services and emphasizing person-centered, whole health care and active local involvement.

As we build upon the past to transform our future, we are grateful for the critical role you play. The road to transformed community health requires partnership, collaboration and dedication. You are a trusted provider because you put people – our members – at the center of everything you do.

Thank you for joining us on this journey and welcome to Arizona Complete Health.

Sincerely,

Paul Barnes, PhD
Arizona Plan President
